"This does more than scratch the itch. But for all of its structure and balance – and undergrowth-driven complexity – this really does have Drink Me written all over it. It's cherried and earthen, spicy and sweet-sour, with both sinewy tannin and a well-judged plushness to its texture. Toasty oak comes through as whispers at most, and everything just feels in excellent good order. It's well sustained too. Yes please. This is very good."
